

PDF-9: Issue Entity & Resolution Flow

Purpose

The Issue entity manages complaints and problems raised by users during their stay at a PG.

Key Relationships

- User → Issue (Many-to-One)
- PG → Issue (Many-to-One)
- Booking → Issue (Optional Many-to-One)

Resolution Flow

OPEN → IN_PROGRESS → RESOLVED → CLOSED

Priority Handling

Issues can be marked LOW / MEDIUM / HIGH to ensure timely resolution.

Why Issues Matter

- Improves PG quality
- Accountability tracking
- User satisfaction monitoring
- Admin & volunteer workflows
